

Multi-purpose Microfibre Cloth

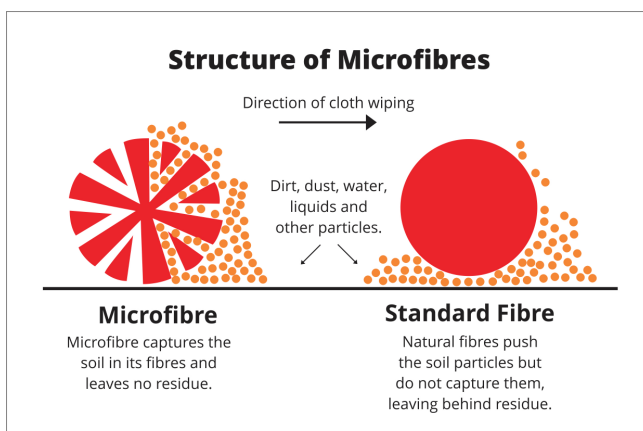

BEGEN Multi-purpose microfibre cloth has high absorbency in liquid, gives good agitation with maximum contact on surface per wipe.

Its dirt picking abilities exceed most similar cloths as BEGEN microfibre loops are very fine. Thus having the ability to clean up more per wipe for that detailed cleaning results on all surfaces.

BEGEN products comes with technology but without extra cost!

Colours available Red, Blue, Green & Yellow

BEGEN fine microfibre loops has more surface contact during cleaning.
